# Copper Cable Lightning-Rods.

**A Conductor of Electricity.** Not less than six times as great as Iron, without liability to rust or corrode.

We call your attention to our large stock of these Cable Lightning-Rods, which are used for **Dwellings, Towers and Stacks.**

We manufacture them of any diameter required, and in continuous lengths, so that a **Complete Circuit** can be obtained without the many joints that are necessary in any other kind of rods, which so far destroy the **Absolute Safety** that is intended to be given.

# Louderback's Perfect Window Screen,

Patented Dec. 12, '82. Jan. 26, '86.

MADE WITH OIL TEMPERED STEEL SPRINGS.

Can be Opened to Dotted Lines.

This is the best "**Side Slide**" **Spring Screen** in the market. The wide side pieces are made in such a manner as not to be affected by the weather, and do not curl and warp as in other screens that are claimed to be "the best."

It looks the same on both sides and is finished by hand in an oil stain imitation of walnut that will neither fade nor wash out. We have put the price as low as any other good screen in the market and believe it to be the best selling screen ever offered.

# Adjustable Knock-Down Door Frames

Patented Jan. 11, 1887.

To Keep Out Flies and Mosquitoes.

The Limit of Cheapness and Simplicity has been reached in these frames, as an examination of them will show. They are mortised and tenoned, and can be put together in a few minutes by any person without mechanical skill, making as good a frame as any carpenter can make, and at half the cost.

# **FINE SCREENS FOR FINE HOUSES**

**MADE TO ORDER**

## **For Protection against Flies, Mosquitoes, Dust, etc.**

You can keep your house free from Fly-Specks, and can Light Your Rooms at night without admitting a host of insects.

Probably No Money Expended upon the fixtures of a house will make so large a return in saving repairs, and in comfort, as that paid for Wire Screens.

They save more than their cost in a Single Year, by keeping flies from disfiguring the interior of a house, its decorations, fixtures, etc.

---

The simple manner in which they are constructed, enables their being sold at

**PRICES MUCH LOWER THAN**

**ARE USUALLY CHARGED,**

while, at the same time, a Neater, Better and More durable article is furnished.

---

Our Screens are put on slides to raise and lower the same as the windows, and can be used for the upper and lower sash. They do not have to be removed to open or close the blinds.
